Projects

10/2021 – present	**TallyExpense,** *Expense tracker for roommates* ⧉ Mobile based website leveraging the MERN stack in order to track household expenses.
07/2021 – present	**Movie Knight Android,** *Android app port / re-write* ⧉ This is a port of my mobile centric web app. I am using this project as a capstone for my React Native course. In addition to all the normal features of the website, this has caching, offline support and a more maintainable code base among other improvements.
11/2021	**Portfolio Website** ⧉ A portfolio website showcasing ongoing projects.

Professional Experience

02/2019 – present Webster, TX	**Stationary Engineer,** *University Of Texas Medical Branch* Shift Leader, coordinate with fellow engineers and hospital staff to provide utilities to hospital and surrounding buildings 24/7.
